Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170  
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I bought the trac phone service because I needed to have a phone that I could have in my car for emergency use. I do not need a portable phone for any other reason and the tract=phone service made it financially possible for me to have this important service. I do not think it is fair to add \$1.00 fees to people like myself who are low volume users, I have used my phone three times in two years, so how

can you include me in the group of people you want to unfairly tax with the added fee.

Please do not enact this law

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Larry Broy
